FOR IMMEDIATE RELEASE

Delta Systems Engineering collects canned foods for local pantries

PHOENIX, AZ – January 2, 2013 –Delta Systems Engineering (DeltaSE) participated in a Holiday Food Drive that benefited local food banks. Offices in Arizona, Nevada and California collected nonperishable food items to help alleviate hunger during the holiday season.

DeltaSE knows that food drives are important to our local food banks ability to provide food to the thousands of individuals they serve. Encouraging staff to donate during the holidays makes a difference in the lives of those in need in our communities.

About Delta Systems Engineering, Inc (www.DeltaSEInc.com)

Delta Systems Engineering, Inc. (DeltaSE) specializes in industrial facility electrical design, construction management services, and integration and support services, with core businesses in the water and wastewater industry, industrial automation, clean and renewable energy, and system integration. Headquartered in Phoenix, Arizona, with offices in Nevada and California, DeltaSE provides solutions ranging from brief engineering studies to multi-million dollar design and integration projects for public and private water utilities, manufacturers, energy providers, engineering consulting firms and contractors throughout the western United States.
